

**PEPTIDES WITH THE CAPACITY TO BIND TO TRANSFORMING
GROWTH FACTOR β 1 (TGF- β 1)**

ABSTRACT

5

The described peptides possess the capacity to bind to Transforming Growth Factor TGF- β 1 (TGF- β 1), and are potential inhibitors of the biological activity of TGF- β 1 through direct binding to this cytokine. These peptides can be used in the treatment of diseases or pathological alterations based on excessive or deregulated

10

TGF- β 1 expression.
